Subject: NFB-Equipment

Good Afternoon:

We are done for now with a lot of the excavation equipment. We have cleaned them up and staged them for pickup. Most were supposed to be picked up yesterday but Herc (Hertz) couldn't pick up until Monday, February 6th. We won't be working at the site next week due to EPA training. We just wanted you to be aware. Most of the equipment is outside but there are a few pieces staged in the rear warehouse of GNBC. I hope it isn't too much trouble for GNBC personnel/Len to allow the access for demobe. There isn't paperwork and Herc is aware of the situation.

Please let us know if you have any questions.

Thanks

Regards,
